

# How To Remove Mold, Mildew, Algae And More From Outdoor Surfaces

## Featuring D/2 Biological Solution

### Applications

- Siding & Roofs
- Sidewalks
- Brick Walkways
- Patio & Decks
- Retaining Walls
- Awnings
- Outdoor Fire Place
- Patio Furniture

### Supplies Needed

- D/2 Biological Solution
- Water for Rinsing
- Scrubbing Tools
  - Soft Nylon or Natural Bristle Brush
  - Roller
- Applicator
  - Roller Spray
  - Spray Bottle
  - Hand Pump (Garden Style)
  - Low pressure power sprayer

### Immediate Results Method

- Apply D/2 Biological Solution
- Allow undiluted D/2 to remain on the surface 10-15 minutes.
- Apply additional D/2 as necessary to maintain a wet surface.
- Scrub with soft nylon or natural bristle brush.  
DO NOT USE METAL BRUSH.
- Lightly mist with water and continue scrubbing.
- Rinse thoroughly with clean water

### No Scrub/No Rinse Method

- Using a sprayer wet the entire surface with D/2.
- Allow to air dry.
- Reapply if rain occurs within 12 hours of application.
- D/2 works with the elements and results occur within one week to one month, depending on severity of soil.

### Additional Information

- D/2 should be used in temperatures 45°F or above
- Before starting, be sure to rinse and water around all grass and plant areas where D/2 will be used
- To protect against future growth, apply a light coat of D/2 and do not rinse

### D/2 Biological Solution

Removes soot, mold, mildew, algae and other air pollutants from just about any surface around your home. Safe and easy to use. Contains no bleach or acids. Safe to use around landscaping.

Available in Quarts, Gallons or 5 Gallon Pail
