Historic Restoration Mortar (HRM)

Two-component, lime-based, latex modified mortar for restoring of time-honored masonry structures. It is ideal for pits in the face, open cracks, and patching for limestone and sandstone.

Ultimate MPH

Two part, structural, exterior grade system that is ideal for re-attaching stone. Best of all, the product is UV stable and non-yellowing!

Duopoxi

General purpose adhesive for concrete, masonry, stone, metal and wood.

Cleaning Headstone

D/2 Biological Solution

Specially formulated to remove environmental pollution, dirt, and staining from biological soils such as mold, mildew, lichen, and algae from indoor and outdoor structures.

Re-Attaching Broken Corners

Touchstone™ Glacier

Touchstone Glacier is a revolutionary clear, fast-curing, non-staining, UV-stable adhesive.

Fast Set Extreme™

Knife grade (non-sag) exterior epoxy system that is ideal for fast setting or cold weather applications where initial setting speed or use in cold temperatures is critical. Fast-Set™ cures at below freezing temperatures.

Last Patch™ Dymond

Exterior grade, UV stable stone repair compound for granite, marble, travertine and any other highly polished natural stone surface.
